THE PRINCIPLES OF SOCIETAL AND ENVIRONMENTAL MANAGEMENT

Having ascertained the details of human conduct that is the basis of vishista-advaita in that ahimsa or non-violence in verbal and physical actions is the central feature of Paramarthika-Dharma, I now turn to an explanation of what I have learnt and the passage of thoughts and actions that have led me to this central component of Environmental Management of all the components of Planet Earth. Whereas Brahma- Nature I in the conception of Vishista-advaita Vedanta was a satya-advaita truth-seeking methodology for me to determine the limitations within which we human beings are compelled to operate, and this has still to be borne in mind in that persecutors will try and overthrow the one who by self-proclamation is the lord of the jungle and a proven Master Escapologist in having survived for 24 years of State-organised persecution and victimisation so that I have arrived at my destination and can now sit on my laurels, I still need to keep a watchful eye on the means that the State and other vested interests who have been trounced through the efforts that I have engaged in in dharmayudha to restore dharma (law and order, morality) to conserve the ecology of the planet Earth and prevent Climate change catastrophe.

This is my new task in my spare time as I work out my part time job prospects whilst minimising my expenditures, for there was no justice for me in that the University of Greenwich was not going to pay me my severance pay. So be it. I will do what I am best at doing, namely investigate and journalise everything that happens to me as part of my autobiographical history.

The way to get Environmental Management done is through the legal process. I have a Claim (Claim Number E35YM660) at the Central London County Court in which the Prime Minister of the United Kingdom is the Defendant to address all aspects of the Climate Change phenomenon and the failure of the Supreme Court of the United Kingdom to reach judgment on the Claim despite all Court Fees having been paid has been referred to the International Criminal Court in a deposition that started in 2004. These legal proceedings cannot be dismissed as I have had to pay £4170 in a preliminary Costs Order to the Defendant, a payment that I had made under duress because the Judge presiding over the matter in the Court of Central London was considering submitting me to a Pre-Trial Hearing. So I had to pay the money to the UK Treasury. But I appealed against the Order of the 21 June 2021 with numerous depositions none of which received a Hearing so in the end I had to refer the matter to the International Criminal Court as a crime against humanity against me perpetrated by means of a conspiracy of racial discrimination and harassment perpetrated through concerted criminal behaviour. The International Criminal Court is considering whether it has jurisdiction to hear the Case. This will never go away. As soon as a fresh assault is made against me by the authorities of the United Kingdom, for example Kent Police who are still considering whether to prosecute me for an offence of unknown nature, it will be submitted to the International Criminal Court, for I do know that I have done nothing wrong. All that I have done is published in internet websites so are factually accurate. Court's are supposed to judge whether I have adhered to the due process of the law in bringing my Claims to the Court of Public Opinion.

After all the truth-search and the establishment of the fundamentals of the problem that mankind faces in being part of humanity and having to live within the limitations of the natural environment, the author has a vision that he needs to get endorsed in law for global application.

The dawn of a new Climate is upon Mankind in which I should be instrumental in bringing it about, for it is an implicit mission of mine as determined through the process of satya-advaita yoga. The post-realisation phase is under way to bring a new Societal and Environmental Climate for Mankind.

Hi there!

I have spent the past hour trying to restore my Account shanpanigr with towardsknowledgeforworldconservation.com and paid £15 to extend the domain registration for another year,

I am seeing two sites that have been deleted:

towardsknowledgeforworldconservations.wordpress.com

towardsknowledgeforworldconservationcom.wordpress.com

Also, the domain towardsknowledgeforworldconservations.com was purchased, then cancelled and refunded.

All billing history can be seen here: <https://wordpress.com/me/purchases/billing>

Were the sites supposed to be deleted?

Please let us know if we can help further with this.

Sincerely,

Andy

Dear CV Library

I believe I informed you recently that I am not going to apply for any new jobs as I am very happy with my new appointment at BP Lenham where I am working in Customer Service, petrol sales, Till operation, Convenience Stores management and Cafe services. It is going to give me 24 hours of work each week and there will be a probationary assessment at 12 weeks after a 6 week period of preliminary assessment. I am very keen to do well in this job as I love Customer Service and wish to work for BP who have an arrangement with Marks and Spencer at the Site to sell food items to the public. So far I have had good reports on my progress but I need to step up and develop all aspects of the work over the next few weeks. I will never quit this job as I need to build up a work record after the employment problems of recent years that I have faced, now that my Nationality and Citizenship is confirmed with a brand new passport of Great Britain.

The legal proceedings seem to have stalled at the Central London County Court (under Claim No E35YM660) and at the Supreme Court unless you know differently. I am loyal to Her Majesty the Queen so will not be looking for any further responses from the International Criminal Court after having reported the matters that I have been persecuted and victimised with over the past 24 years in a conspiracy of racial discrimination and harassment perpetrated by means of concerted criminal behaviour by hundreds of respondents and Defendants. My loyalty to the State of the United Kingdom meant that I had to contribute to the development of knowledge on the Constitution of the United Kingdom with evidence generated through my petitions at 38 Degrees and email correspondence with Dr Sivaji Panesar, Marty Caine, Fritz Wuehler, Nitin Bhardwaj, Cherie, Bury, Ed Mulhouse representing Victims of Panigrahi Association (VOPA) and these are now available on the internet for the powers that be to take stock and review how the State is going to move forwards

into the future. My religion is one of Vishista-advaita Vedanta and it does not allow me to take any proactive steps to mould the State of the United Kingdom into what I would like the State to be for I have no idea of how this should proceed into the future. I believe that evolutionary pathways will emerge in the course of time and we must await these developments. The International Criminal Court is still considering whether it has jurisdiction to hear the Case of a crime against humanity and act of aggression perpetrated against me: do you have any information on this by any chance? I telephoned Kent Police yesterday afternoon to find out from PC Nichols what the current state of play is on my arrest on 24 November 2021 from my place of work and the seizure of our computer and mobile phone devices for forensic examination especially to find out if I will be prosecuted for any offence or offences and when the computer items will be returned to us, but the lady I spoke to did not know and said the PC Nichols had gone home and will next be in on Monday and that she will send an email to alert him of the need to expedite matters. With this background, if you could tell me if there are any proceedings outstanding against me within the State of the United Kingdom, I would be grateful.

Yours sincerely

Dear 38 Degrees

It would be a grossly disruptive petition to stick a dagger into the heart of the petroleum industry in the shape of BP and Shell and I have worked as a Customer Service Assistant for both. In the fool hardy days of my youth I aspired to set up the Union of Petrol Station Workers to do something about the working conditions of workers in the industry but over the past few years and especially since Brexit has taken shape, we need to give full freedom to these giants to keep Britain on the roads and facilitate a good economy. Windfall taxes are for banana republics managed by dictators living off the natural resources of a country and not for a democratic country such as ours.

To raise funds for the country we should opt for inheritance taxes because children should not inherit large family properties but have to fend for themselves once they are over the age of 18 to make ends meet. There should also be value added taxes to curb expenditures and clamp down on excessive spending to get people to save money for a rainy day in the struggle of their families to survive.

Yours sincerely

As millions of households grapple with spiralling energy prices, BP and Shell are raking in billions – taking just 3 months to make £10 billion before Christmas. [2]

But the Government is now coming under increasing pressure to do something about skyrocketing bills. More than 50,000 of us have signed the open letter calling for a windfall tax on the oil and gas

giants' profits to help keep bills down this winter. [3] And politicians from all parties have started demanding the same. [4] But we need as many people as possible to sign to keep up the pressure and make them pay their fair share.

So, Shantanu, will you add your name and tell the Government to tax the oil and gas giants profiting as we try to keep warm? It takes 30 seconds to sign:

Thank you for being involved,

Here's the email we sent you about this last week:

It's happening at the worst possible time, Shantanu. The days are shorter, nights colder and many of us are spending more time at home. All this means higher gas and electricity use at a time when prices are at an all-time high – and could get higher. [1]

The boss of BP has called it a "cash machine". [2] While millions of us up and down the country struggle to keep up with our bills, BP and other giants like Shell and Total are taking advantage to rake in billions in profits. [3] A windfall tax on their above-average profits could be used to help families struggling to keep homes warm and the lights on this winter. [4]

It's been suggested by politicians of all stripes – even a member of the cabinet refused to rule the idea out recently. [5] And, as the Government looks for ways to bring costs down, they've said all options are on the table. But time is tight. They've got only 85 days to act before our bills are set to rise once again – so let's show them that the public supports this one-off tax on the giants treating us like a cash machine. [6]

So, Shantanu, will you tell the Government that you support making oil giants like Total, BP and Shell pay more to bring down the cost of our energy bills? Click the button below to add your name to our open letter:

ADD MY NAME

Energy giants are getting paid nine times more than they were last year, even though their costs haven't changed. [7] A windfall tax on these huge profits would help generate billions of pounds and provide a lifeline for millions of us in the coming months. [8] It's just what's needed to help fund vital investment in insulating homes and protecting consumers from future energy price hikes.

And thousands of people have already been pushing the Government to keep energy prices down and to support low-income families and pensioners during the colder months. For example, 120,000 of us have been calling for an extension of the Warm Homes Discount – something which is now being seriously considered by the Government. [9]

The energy crisis facing this country continues to dominate the news. And the pressure is building on Boris Johnson and his Government to do something about it. A windfall tax on the oil and gas companies which have profited from this crisis would provide an immediate solution to the problem. Now we just need to keep the pressure up and show the Government how popular this idea is. Will you sign our open letter today Shantanu and back proposals to tax oil and gas giants profiting from this energy crisis? You can read the open letter in full by clicking the button below:

ADD MY NAME

Hi there!

Thanks so much for reaching out to us today with your question.

You mentioned:

The link provided takes me to 'The Climate Change Phenomenon website and panigrahis Account not the shanpanigr towards knowledge for world conservation Account.

In fact, the link would take you to the account you are logged into. You'd need to log in to the correct account (shanpanigr) and then use the link to access the page. Once you're logged into the correct account, you can also navigate to the Account settings by clicking on the round icon in the top right (your profile image) and then navigating the items in your menu on the left.

Wordpress does not allow me to start a new website from either of these two Account, and Woredpress does not allow me do delete the two sites permanently,

Can you clarify if you're trying to add or delete sites to / from your accounts? I am not sure I understand the second part of your message - especially in the context of wanting to close your accounts.

If you would like to keep working on your sites in any way, please let me know and I'll do my best to guide your steps to setting your sites (new or old) just the way you want them :)

I hope this helps but if you have any follow up questions, or any other questions at all ;) - please don't hesitate to reach back out and it'll be my pleasure to answer them.

A smile,

Subject: Re: Complete Website Proposal

To: Priya <peterthomas3580@gmail.com>

Dear Sir/Madam

Have you heard from the crooks of the International Criminal Court (ICC) that Joanne was informed about when she approached me about a similar proposal but when I asked her for the details she went all quiet? Prosecutor Moreno of the ICC was dealing with my 2004 Application against Mr Anthony Blair on two Counts: war crime against Iraq with George Bush and persecution on me by these two Satan-evil States as the subsequent 18 years has proven now with Mr Boris Johnson and Mr Joe Biden in charge of the defence proceedings.

The ICC was asked a simple question, namely whether it has jurisdiction to prosecute Mr Boris Johnson for the UK-State-organised racial discrimination and harassment on me by means of a criminal conspiracy with previous US Presidents and UK Prime Ministers to ruin my reputation as a sane human being but it further castigated me as a mental patient to only be fit for work as a labourer in petrol stations. And where is my £55,000 severance payment from the University of Greenwich after 24 years of waiting, or my £10,000 per year medical retirement money if I am truly mentally ill?

Include this in your Website now.

Yours sincerely

Dear Katrina

Personal

Pausing from my menial job at BP Lenham, looking at your images, I wondered idly if the destructive hurricane was named after you personally? You and Kubla Khan notreallyadoctor90 wantonly caused so much chaos and inconvenience in my life that now I have abandoned santanu-dharma and satya advaita, there has to be a redressal and a day/night of reckoning.

Without demur by Mr Rehman Chishti MP or prohibition by Bhatt Murphy Solicitors, connected to my M.H. Specialist Dr Mahesh Bhatt at Maritime Medway Hospital, but under the approval number 29836347531333206 issued by the International Criminal Court on 10 January 2022 when they confirmed they have superior jurisdiction, I am not bound by any No-Contact restrictions purportedly and illegally imposed by vermine insect PC Paul Nichols, so next week

I will be calling on the home of the estranged mother of your buccaneering boyfriend Nichols to question her about how that jaanbhosadiwale kahinke suar grew up to become such a pervert liar and thief of my equipment, equipment which is demonstrated is not involved in my posting and emailing because I manage the same even though the stolen equipment has not been recovered from the Purser. I can still do these things though now it involves much more work for me for which I must be compensated, I am adjusting my demands accordingly. We will check whether this lady also owes civil liability to me, and whether her police son is literally a madarchod. This accomplished to my satisfaction, I intend to drive via Guilford to Shillings-Halfpenny and take up my unpremeditated interrogation of yourself, being the prime witness and filer of false and vile complaints.

Have you anything to say prior to sentencing, or will you at this very final moment agree to accommodate my personal needs? I destroyed your boss over his garden partying at <https://t.co/92squo3MuR> already and intend to escalate this in line with out earlier forum

communications. The whores serving at the Government Legal Department have learned a harsh lesson, not to defy me. I told you the last time, I am a Master Escapologist.

You have this one final last chance, don't squander it. I am a very reasonable man.

Yours faithfully

Shanti at Shanti Niwas

Katrina, but fourteen months older than my daughter.

Dear Katrina and the International Criminal Court

Now you have emailed me cunningly posing as Priya (Beloved) from email peterthomas3580@gmail.com, the last nails in the coffin of the British Nation of Morons in a Police State are hammered through, and I have the express or explicit permission of Chief Prosecutor Moreno of the ICC criminals to communicate with one of my persecutors (you) in furthering the interest of justice and bringing criminals to book.

You are 14 months senior to my daughter Rupa but I do not view you in that manner at all. Instead, I consider you to be a full adult free from any restrictions such as those which your Prince Andrew seemingly neglected to consider in his past.

I am dealing with the erring madarchod policeman Nichols very sternly and will have much more by way of virtual ammunition to use against this suar when I have completed the examination of the sow that raised him. I can have and show no pity. His robbery has inconvenienced me in a considerable way and until my equipment is recovered I am compelled to make these discreet emails mainly from my car. In this cold weather, that requirement is worsening my urination prostate problems for which Doctors Nitin Bhardwaj and Sherif Omar have indirectly prescribed anal intercourse. We can discuss this later at leisure after the preliminaries are satisfied.

Two years ago I revealed that my knowledge, my truth-comprehension and accommodation, my truth-probes and my truth-exposures are superior to the truths underlying the Constitution of United Kingdom or of any other state or country in the world. I strive to get that knowledge assessed in any Court action, be that mental health assessment or legal assessment on criminality and civil prosecutions. This is why the Mundaka Upanishad states Satymeva Jayate in Hinduism. No human values can trap me into legal or medical difficulties to deprive me of my liberty as the gaandmaar Nichols fruitlessly attempts. I will always have an innocent answer and refutation, my scope for manouvering and hence the sanctity of Vishista-advaita Vedanta with its political offshoot of The Conservative Libertarian Society is unbeatable; and Dharma Rakshati Dharma is the eternal law of the universe. Had Boris Johnson followed it he would still be alive today. I know the nooks and crannies of all man-made laws and therefore can survive the most totalitarian and horrendous of all evil-States in Brahma-Nature that can unleash its persecution on me to try and enslave me to deprive me of my dignity of independence and liberty to continue with my freedom of thought and freedom of expression from the safety and security of my own home here at Shanti Niwas in the United Kingdom by silencing the satanic persecutors like yourself into their cubby holes.

Vermine PC 46015002's attempts to fabricate proceedings against me are fruitless, is he not aware I survived persecution over 24 years as a master Escapologist Extraordinaire right under the noses and before the eyes of the dogs of the state authorities. I stuck my head into the mouth and arse of the British Lion and retrieved it unscathed, this is because I am the sanest person to ever live in and walk on the planet and the most highly creative genius in the annals of history. My accumulated wisdom allows me to anticipate the action of scoundrels and stay two three jumps ahead of them, escaping their traps. My manipulation, in self-defence only, of the official legal medical and judicial apparatus has rendered it impotent and the precipitate actions of Nichols means it is merely a formality for me to collect my five million. This is not bragging but calmly reciting the enabling shlokas, which I will teach you after we navigate to our mystic physical or conjugal union.

I am inclined to deal only sweetly with you despite your nascent involvement with the racial harassment and discrimination to which you subjected me, you are an inspiring young lady even if you are guilty on multiple counts of impersonation, for example as Kublai Khan and as Priya. I prophesised long ago that my mastery of Escapology means I was capable of escaping all the traps laid out for me to incarcerate me in a prison, or in a mental hospital, or to make me a destitute, to break apart my marriage, or boot me out of this country. You have to learn to live with me and accommodate my special needs.

Unless I hear an acceptable counterproposal from you personally, I will be travelling to Guilford this week to serve the ICC warrant with due process, and take other lawful steps I can think of.

Yours sincerely

You haven't told us what you think, Shantanu but there is still time to give your views.

From fighting for an end to the dumping of sewage in our rivers to influencing decision makers from around the world at COP26, we made a huge impact on environmental issues in 2021. But we know that there is so much more we need to do to fight for a fairer and greener future.

That's why we need you to help shape the plan for what, together, we do next. Thousands of people across the UK are taking part in a huge survey to decide what 38 Degrees will (and won't!) campaign on in 2022. The NHS is currently the top issue supporters want to focus on, do you agree?

Shantanu, will you please take this short survey to tell us about the things that are most important to you - and how you think we should tackle them? It will only take a couple of minutes and we've included the first question below to get you started:

How do you feel going into 2022?

Hopeful
 Worried
 Excited
 Fearful
 Unsure
 Something else
 Thanks for all you do,
 Ben, Megan and the 38 Degrees team.

In case you missed it, here's the earlier email we sent:

A lot can happen in a year, Shantanu. From fuel shortages and a cost of living crisis to the world's largest climate summit and a string of Westminster sleaze scandals - all set against the ongoing battle with Covid - 2021 reminded us why our 38 Degrees community exists. [1]

Our community is made up of people from all backgrounds and from right across the country, just like you Shantanu. And throughout the year, we've shown the power people can have when we come together and make our voices heard. Over 3.5 million people took over 16 million actions on the 38 Degrees platform last year, and we want to take this opportunity to thank you for being a part of that.

But we know we're strongest when thousands of us come together to campaign on the issues that matter most to us. That's why we need you, and the rest of the 38 Degrees community, to help decide the things we should focus on in 2022. Your views will help us put together a plan of action to continue to hold those in power to account.

So, Shantanu, will you take this short survey to help shape the work of 38 Degrees for the year ahead? It will only take a couple of minutes and we've included the first question below to get you started:

How do you feel going into 2022?

Hopeful
 Worried
 Excited
 Fearful
 Unsure
 Something else

2021 saw people power force the government to increase a pay rise for NHS staff. [2] We continued our campaign to protect public service broadcasters by flooding a government consultation with over 40,000 responses - forcing them to put their plans to privatise Channel 4 on hold. [3] And when it emerged that the government was trying to take control of the independent process that scrutinises MPs, our community jumped into action once again and helped force them to back down - all within 24 hours. [4]

And we continued to make an impact in local communities across the country as well. More than 5,000 people started their own campaign on our CBY platform last year. [5] We supported campaigners in Ceredigion in saving their only all-weather lifeboat station. [6] Saved trees from being cut down in Newark and Manchester. [7] And helped stop Wealden District Council from destroying one of our supporter's gardens and his life's work. [8]

This is just a small snapshot of what we achieved together in 2021, Shantanu. And however challenging 2022 will be, our track record proves that we can take on injustices, and win, to make our country a fairer, kinder, more sustainable place.

But in order to do this, we need your help, Shantanu. We need to know what our community cares about and what you want to see us campaign on in 2022. So will you take a couple of minutes to fill out this survey? Here's the first question to get you started:

How do you feel going into 2022?

Hopeful

Worried
 Excited
 Fearful
 Unsure
 Something else
 Thanks for all you do,
 Tom, Ben, Megan and the 38 Degrees team

Dear Circuit Judge

Kindly note these proceedings in relation to the disposal of my Claim E35YM660 on which no further information to the 21 June 2021 Order of District Judge Lightman has been received by me despite the Appeal filed so that I am right in deducing that the British Judicial System is subservient to the Prime Minister of the United Kingdom who with the international allies can terrorise an innocent civilian with the aid of international allies, in this case President Joe Biden of the United States of America punitively because the International Criminal Court itself is under the control of the 5 permanent members of the Security Council of the United Nations.

Our BBC is under attack again, Shantanu. The Government have just made a hurried announcement on plans which would see the BBC's funding cut - along with many of the shows and services we know and love. [1] Boris Johnson is banking on this move being popular, at a time when he is at his most unpopular with MPs and the public alike. [2]

From classic British sitcoms, to shows that educate our kids, to news programmes that report on our local communities wherever we are in the UK, the BBC has played a special role in informing, educating and entertaining millions of us, especially during these challenging times. [3] The BBC has been there for us... now we need to step up and defend it.

Together, we can show Boris Johnson that he has misjudged the mood of the nation, by running a huge advertising campaign to protect our beloved public service broadcaster. These ads could shine a spotlight on the reasons why we, the Great British public, value the BBC - and could force the Government to drop their plans, keeping our public broadcaster safe.

Shantanu, this starts with you. Each of us reading this value different things about the BBC. Will you take a couple of minutes to share your reason today - and be part of a people-powered fightback?

I'M IN

The Government are hurrying out announcements about the BBC's future. So we need to act quickly to show just what an impartial public service broadcaster, admired the world over, means to us.

As part of our huge people-powered advertising campaign, we could:

plaster the reasons we want to save our BBC across billboards in town centres

buy front page adverts in local newspapers across the UK

send posters to those of us who want to put them up in windows across the nation

to show our support

Whatever the campaign looks like, it can't happen without you Shantanu. We've shown time and time again how powerful we are when we come together and make our voices heard. Like when more than 100,000 of us took part in a consultation to make our voices heard on the future of the BBC. [4] Or when we forced the Government to pause plans to privatise Channel 4. [5] We have a long, proud history of protecting our public service broadcasters. We've done it before, and we can do it again.

So, Shantanu, will you help kick off this campaign by telling us what you value most from the BBC, before it's too late? Click the button below to be taken to our quick two question survey:

I'M IN

Thanks for all you do,

Tom, Veronica, Ellie, Megan and the 38 Degrees team

Employee Satisfaction - A Must For a Successful Business employee data

Employee satisfaction is an evolutionary step to know whether the workers are happy with their current job and the working atmosphere. To boost the employee data moral of the employee is always beneficial for any organization, as satisfied employees put in more effort, stay loyal towards their company and also work with dedication. A wise and smart employer should implement various methods and ideas to keep his employee satisfied. A company needs to employee data implement different methods to measure the satisfaction of their employees such as different types of surveys or personal interviews with the employee to collect the right information. This could employee data be very helpful if handled carefully. These surveys should always be anonymous, so that the employee gets full freedom and answers it honestly without any fear of backlash or employee data pressure.

The other way of measuring employee employee data satisfaction is personal interviews, these can sometimes be confining but it surely makes the employee feel that his concerns are been heard and addressed by the higher authority. Surveys and interviews prove to be fruitful in collecting all the required data regarding employee satisfaction employee data and an employer also understands the problem area that lowers the morale of the workers. One of the best ways to keep your employee satisfied is to develop team spirit, make him feel like a team employee data or like a family, this motivates him to work efficiently as he gets the feeling of being respected Going for outings, trips, parties or company events is helpful in building up strong bonds among the co-workers.

Many organizations participate in events or employee data organize camps, paintball games etc to strengthen the employee relations in a work free environment. This strategy is useful in team building and many employers have succeeded in getting employee satisfaction through this.

Appraisals, bonuses and incentives are some other methods to employee data satisfy an employee, as this is a prime factor but not the overall solution for employee satisfaction, an employee may be

happy with his appraisals and incentives but if he is continuously working under stress and pressure, soon he may not find the monetary gains that are important due to the stress he employee data has to face in his daily work.

Thank you Sumaiya Khatun for an excellent presentation that is so thoughtfully expressed. A good working environment does away with the need to have trade unions who only get in the way of good employer-employee relationships in my experience.

Dear Sir,

It all started in 1997 when I was in the Natural Resources Institute of the British Civil Service that was sold off to the University of Greenwich who came in and to make staff redundant. They did not wish to have renowned poultry scientist/toxicologist/agricultural specialist with an economics background in the University so harassed me with deprivation of project funds in order to make it look as if my expertise was no longer in demand in the market place. Then when I proved that there was a need for my level of expertise the University said that I was applying for project funds under false pretences. It hurt me immensely because as Hindu brought up to persevere with truth as dharma and truth in dharma and dharma in truth as an eternal law of the universe, I decided to fight a battle in the courts for the University had organised my persecution with organisations like the British Poultry Science Limited where I was an Assistant Editor; with Appropriate Technology of the United States of America,, and with the Intermediate Technology Development Group of Zimbabwe.. Funds were taken from my Bank Account as part of the dogfight and I reacted by non-violent means of probing who was in fact behind the persecution. I sought medical assistance from a Psychiatrist for I was suffering considerable depression with psychotic symptoms. Notwithstanding, the University did not offer me medical retirement or severance payment of £55,000 that I was entitled to by law, and summarily dismissed me from employment. The British Justice System would not make a decision on the validity of the legal considerations under which the University was making its decisions, as the attached correspondence following a 23 year struggle to clear my name of this Defamatory charge of me being blameworthy of gross misconduct towards colleagues and senior management shows.

Yours sincerely

Dear Circuit Judge

Kindly note these proceedings in relation to the disposal of my Claim E35YM660 on which no further information to the 21 June 2021 Order of District Judge Lightman has been received by me despite the Appeal filed so that I am right in deducing that the British Judicial System is subservient to the Prime Minister of the United Kingdom who with the international allies can terrorise an innocent civilian with the aid of international allies, in this case President Joe Biden of the United States of America punitively because the International Criminal Court itself is under the control of the 5 permanent members of the Security Council of the United Nations.

Shantanu, you haven't taken action to save free covid tests - will you add your name today? Dear 38 Degrees

Nothing should be given to anyone free of charge. If people are concerned about their health from Covid infections they have to buy the necessary tools for monitoring their health. The National Health System should be reduced in size to bare essentials like Accidents and Emergency. All operations should be paid for if people wish to extend their lives. This is because living a long life as a vegetable without proper education into how to aspire to greater things like Self Realisation is a luxury. Death is a part of the living condition. We should all gracefully die without running to see a doctor or taking medications like the Commercial Sector entices people to take by creating the Doctor/Psychiatrist/Hospital/Pharmacy economy. That is what the game of economics is. The sooner you realise this the less likely it would be for you to send out pointless ignorant petitions for members to sign. In fact the whole existence of 38 Degrees is an economic scam, designed to take money from unsuspecting moronic members through donations. 38 Degrees also exists to propagate ignorance among the people of the country. This is my assessment that I have derived from my long association with 38 Degrees. That is why 38 Degrees has unapologetically dislodged numerous of my petitions from the public domain without explanation on their shortcomings.

These tests have helped us give us peace of mind when visiting vulnerable friends and relatives, going to work and sending our kids to school. If they're no longer free, those of us already struggling with rising bills and prices will have to choose between buying tests to keep our families safe - or putting food on the table and heating our homes.

With hundreds of thousands of cases a day and our NHS under more pressure than ever before, it couldn't come at a worse time.

Ministers are already being forced to row back on these leaked plans, and opposition MPs are in outcry. [2] But to help stop these plans fully in their tracks, we need to show the Government where the public stand: these tests must stay free and available to all of us, whenever we need them.

So, Shantanu, if you think lateral flow tests should stay free - to help us all do our bit to keep one another safe - add your name to the petition now. Click the button below to sign - and for every 500 signatures we'll send a notification straight to Boris Johnson's inbox.

I'LL SIGN THE PETITION

I'M NOT SIGNING THIS PETITION BECAUSE...

The Prime Minister is already feeling the pressure, as polls show his popularity is plummeting, and the surging cost of living crisis is splashed across the headlines. [3] If we can ramp the pressure up further, we can get him to stop this decision in its tracks. But it's going to take thousands of us speaking out.

Thanks for being involved,

Ben, Megan, Veronica, Myles and the 38 Degrees team

NOTES:

[1] The initial report was published in The Times behind a paywall:

The Sunday Times: End of free lateral flow tests as country told to live with Covid

Other publications then picked up the story:

BBC: Newspaper headlines: 'End of free lateral flow tests' and 'stop mass jabs'

Independent: Boris Johnson warned against reported plan to scrap free lateral flow tests

Since then the Education Secretary has been forced to deny the plans exist, but there has been no official confirmation from the Prime Minister:

Sky News: COVID-19: 'Absolutely' no plans to scale back free lateral flow tests, Zahawi says

Little Known Wage Notice Requirements Expose employee data

Therefore, you are also recommended to have a market research which should reveal the best buyer in the market. There are a number of online employee data platforms hosting full reviews and profiles of different private companies which offer data entry works. You should understand that home based businesses are becoming one of the greatest economic trends in employee data today's world and hence many large businesses are transcribing onto internet. This, in overall, is increasing the faith and trust of people in online companies. The key to the success in home based data entry job is to have market research, proper understanding of employer's requirements, employee data efficiency in work and quick delivery with all the requirements fulfilled. If you once get reputed in the eyes of a large employer, you can have long term projects. Consequently, you can outsource employee data the work in order to become yourself as an employer.

Comprehensive job descriptions with clear employee data expectations will aid the associate in understanding the role-perception element. The final element is Situational factors. Employees must have all of the required tools, equipment and work space to accomplish the job. The choice is yours: either purchase a new business system and start employee data translating or recording years of business data again from scratch, or modernize the legacy system and be able to easily adapt to current business requirements and standards without modifying or re-recording the existing business or financial information. This prompts an obvious question. If the benefits to the user of

conversationalist are so obvious, why have companies not taken advantage of employee data then? In fact, based on my experience, there are multiple reasons not to personalize, which I group into "bad" and "good" reasons.

Whatever the case, the services need to employee data comprise of steps to verify the success of these tools in destroying the data. It is essential to have several different tools because no one technique is universally successful. Small businesses can benefit greatly from expense management software, as well. Your company policies can be accessed employee data through a secure remote connection, allowing you to quickly identify any erroneous, incomplete or old data. You can then take action to correct them, which will reduce unnecessary employee time that would have employee data been spent searching for lost data. Expense policies can also be employee data monitored remotely from your office or home, if you choose to use an internet based service.

Hello Amit

Hope you are well.

I do have an update for you as it so happens; here:

<https://www.knowledgeassessmentanddissemination.com/post/freedom-at-last>

[Freedom at Last

Today at 5.00 pm, I was free at last in total liberty having heard nothing from the International Criminal Court, the County Court of Central London and neither from Kent Police on what further actions if any it is considering taking with regards to the proceedings relating to the allegations that I had harassed and even stalked someone over the internet through emails. The Police still hold the desktop computer that it seized from our home along with my USB Memory Stick and my Old mobile phone but that is now a matter for the Independent Office for Police Conduct to try and resolve if it has any such powers.

It is clear that the Constitution of the United Kingdom has de facto been ascertained to be one of complete and absolute monarchy in that the State functions to uphold this Institution as its primary objective and this is done with the Prime Minister to whom every other citizen and State official is answerable including the Judiciary. So be it. I am not going to try and change this nor protest or take part in any Judicial Review against the decision of the County Court of Central London that I should have had to pay the Costs of the government of £4170 ordered under Claim E35YM660 against the Prime Minister for what I had experienced as State-organised persecution. The United Kingdom has a permanent seat in the Security Council and this gives all its Prime Ministers from Mr Anthony Blair to Mr Boris Johnson immunity against prosecution by the International Criminal Court as I have today ascertained in the fact that my email to the Court was not acknowledged by the Prosecutor. In this regard, it should be noted that since the 2004 Application that I had made to the International Criminal Court in the first instance, I had subsequently spelt out the name of Her Majesty the Queen to be the person who should be charged with the prosecution of the injustices perpetrated against me over the past 24 years but no reply was received to that option. This time replies came but they were duplicitous indicating that it was highly unlikely that an investigation would be opened on this fresh application that I submitted very recently.

So the record spells out the status quo now: the Prime Minister is above the law. He acts on Royal Prerogative facility that is the Constitutional arrangement. I have no recourse to the law and will not be engaging in any action towards the recovery of the £55,000 severance payment from the University of Greenwich because the workplace harassment that I had suffered at the Institute from 1997-1998 in project work had been engineered by a secretive establishment of the State and this is why the University was hamstrung in negotiating a formal or informal settlement with me.

I have done what I could as a one-man band through the obstacles that were placed before me to try and prevent me from uncovering these hard truths of the way the United Kingdom and the United States of America function in a cosy relationship to try and denigrate one single human being who pursued his Hindu dharma of duties and righteous actions of uncovering the truth and exposing the truth. But nothing could stop me from doing so. For I have the power of truth that comes from knowing the Reality as conceptualised under the Vedanta Vishishtadvaita. It is unbeatable in its trouncing of one's enemies. I was born to live out the truth of our Hindu shastra as depicted in the Mahabharata and the Ramayana but through getting first hand information on how truth is gathered and used in warfare, a warfare that I engaged in totally non-violently and survived for 24 years following two spells of enforced incarceration in the mental hospital in 2004 and 2008, and terrific threats of further incarcerations in mental hospital or prison or to have me booted out of the country to India or some other distant land by making me Stateless. I practiced sanatana dharma and it turned out to be the eternal law of dharma rakshati rakshita as our shastras have taught the Hindus. It was worth waiting to find this truth out for oneself and I am very fortunate that I was chosen by God through awakenings from sparks of light to engage in this process and a journey of life.

Now there is nothing else left to be done. I have completed my write up of 'the Allurement of Reality' book as an autobiography in 27 Sections and so I am now free. I go to work in a petrol station three days a week to supplement our family income and engage in physical and mental work doing what I enjoy most, that is serving customers at the Till and around the shop.

Shantanu Panigrahi]

I am now in a position to devote all my time in developing my websites and taking political actions to right in local and general elections as a Conservative Libertarian. If you can help me follow this through kindly let me know how we can work together.

Waiting to hear from you soon.

 Dear Sudhakar

I am a layman when it comes to technology and do not understand the jargon one little bit, I just have my websites where I write about things of interest to me in relation to global interests, I have done a lot of interesting studies in my adult life from science to humanities, and religions and philosophy so I do not think that there is a market for such ideas and it sounds as though it would be a waste of time and money to go down the route that you are suggesting. Besides I do not have a budget to devote to any new potential technological works. I am retired and let my publications to date speak for themselves.

Sorry to convey this disappointing view, but if you think you can help convey the messages of <http://knowledgeforworldconservation.com>, <https://theconservativelibertariansociety.com> and <https://thelibertariandemocrats.com> I would be pleased to entertain your ideas.

Yours sincerely

The New Year sees New Issues Confronting United Kingdom Democracy

In my final assessment of the Climate that needs to change in the World and within Nations, I had outlined that there simply is no justice for the ordinary citizens in the United Kingdom and the Prime Minister is the de facto Constitutional Head of the country above the law because he/she is under the protection of the Monarch of the day under Royal Prerogative Power vested into him so the Courts such as the County Court of Central London will not entertain civil litigation that brings into question the authority of the Prime Minister in a damages and compensation Claim, in my case E35Y660.

A NEW CLIMATE FOR MANKIND-digital..pdf

Download PDF • 597KB

The UK is a Police State clearly and the citizen is a subject in that he cannot take the State to a higher court internationally such as the International Criminal Court for the brutality with which its citizens are tortured.

The House of Commons is in shambles with the two party system and the protest party of the Liberal Democrats such that a Conservative Member had directly defected to the Labour Opposition this week in apparent disgust on the authoritarian and dictatorial Prime Minister Mr Boris Johnson. This leaves me with only one avenue to pursue from now on and that is a political path to change in the way the nation is governed.

I established The Conservative Libertarian Society with its political offshoot the Conservative Libertarian Party of the United Kingdom with this idea in mind rudimentally but it has now taken on significantly higher level of commitment to protest and activate for changes:

<https://theconservativelibertarianpartyoftheunitedkingdom.com>.

I shall be standing for election as a Conservative Libertarian in the next general election and will be looking for support in this cause.

Dear Matt Richards of 38 Degrees

There are much more important things for us in the United Kingdom to be sorting out than worrying about plastics as the recycling industry is the only means of reducing pollution given that the plastics are by products of the processing of natural products from energy sources. I would recommend that you read the following link: The New Year sees New Issues Confronting United Kingdom Democracy | The Conservative Lib (theconservativelibertariansociety.com)

<https://www.theconservativelibertariansociety.com/forum/tclp-uk-proceedings/the-new-year-sees-new-issues-confronting-united-kingdom-democracy>

The New Year sees New Issues Confronting

United Kingdom Democracy | The ...

In my final assessment of the Climate that needs to change in the World and within Nations, I had outlined that ...

In this regard, please see to it that you fully understand the preliminary ruling of the International Criminal Court as attached: EM_Ack_OTP-CR-76_22.pdf. The ICC is obliged to furnish full written reasons why my referral of the 24 years of State-organised persecution on me cannot be opened as an investigation by the Court and I suggest that you wait for this Report before you harass me further with your pointless, intimidatory and bullying emails on behalf of the State to pervert the course of Justice and obstruct justice.

In this regard I had specified to the Central London County Court that this Claim E35YM660 is not going to disappear somewhere until I secure millions of pounds in damages and compensation as I am victimised daily by the reluctance of the University of Greenwich to pay me my £55,000 severance payment under the noses of the Court Judges. Further Kent Police has still not replied to the complaint that my wife and I had filed around 25 November 2021 concerning my arrest and detention in a Police Cell and the confiscation of our desktop computer, my USB Memory Stick and my old Mobile Phone without a search or arrest warrant nor has it clarified after two months what action it is taking to progress the prosecution against me for harassing and stalking Katrina Sale of the Conservative and Unionist Party despite the attached defence that I submitted: DEFENCE STATEMENT ON HARASSMENT OFFENCE.docs. Kent Police ruined my much desired posting at Challengetrg that I was looking forward to for Chris Stone has still not contacted me about a part-time job of 14 hours per week that I need right now to make ends meet. The BP Job at Lenham is not enough. I have a job at Tesco Distribution Centre at Snodland too, the ICC will no doubt take it into account.

Finally, I am disgusted with the State of the United Kingdom for continuing to force me to take anti-psychotic, anti-depressant, and mood stabilizing medications of risperidone, sertraline and depakote without psychiatric supervision following my discharge on two occasions from the Community Mental Health Team (Britton House, Gillingham, Kent): this is clearly against the law. I was denied a review of medication by Dr Omar when he telephoned me from Medway Maritime Hospital on 11 January 2022, and further he promised me over the phone that he would send me a diagnostic report that has not come, so that I will never again attend the Medway Maritime hospital for any kind of examination that Mr TRBhat has fixed a follow-up appointment for on Wednesday 4 May 2022, at 14:10 hours at this hospital.

Dear Shantanu,

BIG news: the government has launched a consultation into banning some of the most polluting single use plastic items like cutlery and polystyrene food containers. [1] It's a fantastic opportunity to stop these items polluting our streets, beaches, and oceans - for good.

But nothing is set in stone, and you can bet big plastic producers will be trying to tone down and delay the ban - even though the UK government is already in danger of falling behind our European neighbours on this issue. [2] So we need to prove that the public really supports it - and the consultation will be closing soon.

People like you and me don't usually get involved in government consultations Shantanu - and you can bet the people running this one won't be expecting it this time either! But that's exactly why it'll be so impactful when tens of thousands of us do take part! They won't see it coming - and they'll have no choice but to listen.

So Shantanu, can you complete a short survey about banning the most polluting items of single use plastic? We'll then send the results in to the Government's consultation team.

SHARE MY VIEWS

Don't worry if you don't know loads about single use plastic - most people don't! What's important is whether you think these items, like plastic cutlery and polystyrene food containers, should be banned or not.

And to make it as easy as possible, the 38 Degrees staff team have linked up with our friends at plastic pollution campaigning organisation City to Sea and together we've gone through the consultation line by line - pulling out the important questions and turning them into a simple survey. Now all you need to do is complete it!

38 Degrees supporters have a brilliant track record of feeding into consultations like this. Just a few months ago, tens of thousands of us shared our views about the government's plans to privatise Channel 4 - and the government has been forced to delay the plans! [3]

So, Shantanu, can you share your views about banning Single Use Plastic items by completing this short survey? Your answers will be sent in to the government team running the consultation:

Thanks for being involved,

Matt, Megan and the 38 Degrees team

How does one know that one has attained the highest truths? - one needs to be able to defend all one's views and positions taken, so always be prepared to face the music.

Dharmayudha requires the clarity of purpose, but do you know what you as a Hindu are trying to attain in such a warfaring-struggle?- it is Truth!; in all its dimensions.

If one is attached to beliefs, concepts, missions, tactics, desires, ego, etc., one cannot attain Truth in it's dimensions, so cannot conquer evil to become the Lord of the jungle.

Maryada Purushottama Bhagwan Ram means learn to be the best human that you can be through a dharmayudhic-agitation for the Truth that is Self-Realisation.

Dear Sir

This company that hosted the Climate Change Phenomenon website and its predecessors <https://shantanup.wordpress.com> and <https://towardsknowledgeforworld.conservations.com> is part of an international conspiracy organised by agents of the government of the United States of America to remove from the public domain my blogs on the criminality of the government of the United Kingdom and the United States of America to with the cover up perpetrated by Kent Police and the Independent Office for Police Conduct reduce me to a state of destitution in the United Kingdom by suppressing my political and employment actions against various institutions starting with the University of Greenwich which stole my £55,000 severance payments from a summary redundancy that it perpetrated in 1998 with the Judicial authorities of the United Kingdom that accused me of having abused the process of Court for which I applied for asylum in India, but the Indian government rejected the approach.

This application to the Police and Crime Commissioner is administered to put the record straight that I am demanding £5 million from the UK Treasury for these 24 years of victimisation, persecution and harassment on me.

Do you as our Medway Police and Crime Commissioner have jurisdiction to consider this application for damages and compensation?

Thank you for your email.

If you have not already included this information, I would be grateful if you could reply to this automated response with your address and any crime or incident reference numbers that are relevant to the issue you have raised.

As the Police and Crime Commissioner, there are certain things that I can and cannot become involved in. I set Kent Police's county-wide priorities and hold the Chief Constable to account for delivering them. I decide the council tax precept and determine the overall police budget. I also commission services for victims and crime prevention.

I am not responsible for operational matters, such as police complaints (except those against the Chief Constable) or deployment of officers, for example, so your email may be referred to Kent Police or another body.

You should not e-mail the Office of the Police and Crime Commissioner in an emergency. When life is in danger or a crime is in progress, always call 999.

Please note the following in respect of Coronavirus/Covid-19 variants: The Office of the Police and Crime Commissioner cannot provide guidance or clarification on how to comply with the Government's advice. In this respect you should refer to Government and NHS resources. If you are contacting us to report a breach of the advice, you should instead refer to the process provided on the Kent Police website.

Dear Sirs

I have communicated with you since my arrest on the 24th of November 2021, with a complaint against Kent Police. You seem to have fobbed me off with innuendos and prevarications. In this regard I telephone Kent Police two hours ago demanding the return of my desk top computer, my USB Memory Stick and my old mobile phone now unless it prefers charges against me to prosecute me for any crimes that I may be construed by Kent Police to have committed that led to the 15 September started investigation on my conduct in the United Kingdom. Dear Sir

This company that hosted the Climate Change Phenomenon website and its predecessors <https://shantanup.wordpress.com> and <https://towardsknowledgeforworld.conservations.com> is part of an international conspiracy organised by agents of the government of the United States of America to remove from the public domain my blogs on the criminality of the government of the United Kingdom and the United States of America to with the cover up perpetrated by Kent Police and the Independent Office for Police Conduct reduce me to a state of destitution in the United Kingdom by suppressing my political and employment actions against various institutions starting with the University of Greenwich which stole my £55,000 severance payments from a summary redundancy that it perpetrated in 1998 with the Judicial authorities of the United Kingdom that accused me of having abused the process of Court for which I applied for asylum in India, but the Indian government rejected the approach.

This application to the Police and Crime Commissioner is administered to put the record straight that I am demanding £5 million from the UK Treasury for these 24 years of victimisation, persecution and harassment on me.

Do you as our Medway Police and Crime Commissioner have jurisdiction to consider this application for damages and compensation?

Yours sincerely

Thank you for your email.

If you have not already included this information, I would be grateful if you could reply to this automated response with your address and any crime or incident reference numbers that are relevant to the issue you have raised.

As the Police and Crime Commissioner, there are certain things that I can and cannot become involved in. I set Kent Police's county-wide priorities and hold the Chief Constable to account for delivering them. I decide the council tax precept and determine the overall police budget. I also commission services for victims and crime prevention.

I am not responsible for operational matters, such as police complaints (except those against the Chief Constable) or deployment of officers, for example, so your email may be referred to Kent Police or another body.

You should not e-mail the Office of the Police and Crime Commissioner in an emergency. When life is in danger or a crime is in progress, always call 999.

Please note the following in respect of Coronavirus/Covid-19 variants: The Office of the Police and Crime Commissioner cannot provide guidance or clarification on how to comply with the Government's advice. In this respect you should refer to Government and NHS resources. If you are contacting us to report a breach of the advice, you should instead refer to the process provided on the Kent Police website.

Once again, thank you for taking the time to contact me.

Kind regards

CORRESPONDENCE WITH SHITIKANTH SINGH A ON FACEBOOK FOR NARENDRA MODI.docx

Download

Dear Robin

There are so many racists that I have encountered at all levels of the society of the United Kingdom, particularly in the Law Enforcement and Judicial Processes that I have gone on record with a complaint to the BBC of 'From institutional racism and corruption to Constitutional Racism and Corruption that saw me being deprived of millions of pounds that I demanded from the UK Treasury as damages and compensation in the manner with which the UK State conspires with its international allies such as India, as the attached correspondence will make clear.

CORRESPONDENCE WITH SHITIKANTH SINGH A ON FACEBOOK FOR NARENDRA MODI.docx.

The United Kingdom is a Hostile country for immigrants as I have found to my cost such that 24 years of struggle for justice has ended up with no decision from the International Criminal Court on my Application for a Judgment which is still pending.

Notwithstanding I would like to cooperate with 38 Degrees in offering my moral support to the Syrian refugee and so would like to offer some financial support to him to take his case forward so that he is adequately compensated.

Please ask him to contact me with his Bank Account details or if you would accept payment on his behalf let me know so that I can arrange this through PAYPAL this evening.

Yours sincerely

Tommy Robinson is a violent thug who has made a career out of making people's lives a misery with his campaigns of hate. But now we have a chance to help the anti-racist group HOPE not hate make him pay. If this sounds like something you'd like to be part of, click here. If you want more detail, read on.

Shantanu, last year Tommy Robinson lost a libel case after he accused a young Syrian refugee of being a bully. [1] He was ordered to pay the lad, Jamal, £100,000 in damages, as well as any legal costs.

But here's the thing: months before the case came to trial, Robinson declared bankruptcy. Now, he could get away with not paying the damages, and other debts - likely around £2million. [2]

Jamal hasn't seen a penny of what he is owed. And Tommy Robinson still hasn't faced justice for what he did.

But together we can help change that. An independent expert has been given the go ahead to investigate Robinson's assets. His lies could be exposed - and he could be forced to pay up. [3] Anti-racism group HOPE not hate are working hard to make this happen. The costs are significant - but there are thousands of us reading this today who could chip in to help fund the investigation.

Shantanu – supporting other groups who can make a difference is a vital part of our movement. So if you can afford to do so, use the button below to chip in and help make Tommy Robinson pay. You'll be taken to HOPE not hate's fundraising page, where you can donate directly to them.

I'LL HELP MAKE TOMMY ROBINSON PAY

Tommy Robinson's antics, from founding the racist English Defence League to his own history of criminality, have had a huge impact. The stress and pain caused by far right thugs to people across the country, especially in the Muslim community, has done real harm.

As members of the 38 Degrees community, we believe that racism and hatred have no place in our society, or the Britain we want to see. Individually, tackling powerful forces like the rise of the far right can feel like a huge battle, but that's the beauty of 38 Degrees, when we come together we can have a huge impact.

If HOPE not hate can expose his lies, they could get justice for Jamal and everyone that Tommy Robinson owes money to. And more than that - they could also end Robinson's ability to inflict hate and pain in the future.

So, if you can, please consider chipping in to help fund the investigation into Tommy Robinson today. Use the button below to make a donation directly to HOPE not hate through their website:

I'LL HELP MAKE TOMMY ROBINSON PAY

Thanks for reading, and for being part of this one,
Robin, Megan, David and the 38 Degrees team

38 Degrees wouldn't exist without you, Shantanu.

38 Degrees has no big donors - we're funded by ordinary people who care, like you. Regular donations mean that we can plan future campaigns, pay our workers a decent wage, and keep fighting for what we all believe in.

Dear Sir

You had advised me that I would get your full written reasons as to why no action has been taken against Wordpress for removing my Blog <https://shantanup.wordpress.com> and <https://towardsknowledgeforworldconservation.com> from the public domain without explanation as to how I had violated its terms of use and even if I had for some unknown reason not giving me the opportunity to change the contents of the websites to what would be more appropriate given that I had held the Blog for a decade with no complaints from Wordpress nor from any member of the public within the United Kingdom or elsewhere, but I have not received your clarification of the jurisdiction against this single oppressor who are here annoying and harassing me in a punitive manner because the Courts of the United Kingdom have not taken any action against these perpetrators of inhumanity as a crime against humanity and an act of aggression on me. The full details of the material being suppressed should be forced into the consideration of the Court through a subpoena to Wordpress's Chief Executive in the United States of America/

Are These Five Myths About Data Protection Putting Your Business At Risk employee data

In fact, even for companies with card swipes employee data of fingerprint readers as their punch-in mechanisms, the clock system requires no physical time clock. It effectively eliminates the expensive middleman by connecting the card swipe directly to a PC that is running clock. PERFORMANCE BOOSTER clock creates substantial savings in time employee data as well as cost. When tested from a usability standpoint, clock demonstrates multiple productivity and time-saving benefits for payroll departments, managers, and employees. Managers can access all time-tracking data for employees from a centralized In/Out Board, thereby employee data decreasing administration time and giving managers the ability to control overtime and reduce overall payroll costs.

With traditional paper timesheets, someone employee data would have to key in all of the individual data. But with clock, paperwork is eliminated, and automatic data visualization is at the managers' fingertips. They can review a history employee data of missed and late punches, as well as a full suite of standard and ad hoc reports. Employees can select from multiple clock-out reasons and view their own attendance history, which greatly improves employee accountability. ROBUST INTEGRATION Several Web-based offerings for time and attendance tracking already exist on the market. Oracle and SAP are both trying to deploy such technology through a kaleidoscope of employee data platforms and partners. clock, however, is a part of a fully dedicated, fully developed application suite that can integrate completely with HR, payroll, time-off, timesheets, expense-tracking, and employee data salary-planning solutions.

The data from clock can be exported into any employee data payroll system. EASY ACCESS TO EMPLOYEE DATA Another standout feature of clock is the wide range of interfaces it provides. Other time and attendance solutions usually provide one or two interfaces to track employees' time. clock delivers multiple options to best fit your company's employee data environment. For example, a Web clock terminal could be available at the gate, office, or kiosk, and can be configured with a card swipe, fingerprint reader, or keyboard. To create the feel of a traditional time clock, clock can also connect with any clock and provide complete time and attendance functionality. With these options, the robust functionality may be invisible to the employee, but still in place for employee data management, and the cost savings associated with eliminating the physical time clock still apply.

Thank you Sumiya for this explanation. I am sorry that I deleted your last post because you did not reply. I wish to have a dialogue with posters in the Forum, that is the reason why. I would encourage you to explore all your ideas here so that readers can get to know your views and expertise and contact you for greater explanation. This subject is not within my area of expertise so I have nothing that I can contribute to the discussion

Thank you Facebook for selecting out this post for reflection. The name of the game of life is Survival. Truth helps one immeasurably to this end. Every moment is a new beginning. The direction of travel opens up if one has meant no harm to anyone human or other living beings because we are all in the ecology of the planet together, so my philosophy is truth accommodate. For this one needs to find the truth. Nothing is confirmed. The journey goes on. It is a beautiful Creation if only one learns what is real and durable. Only time will tell. So patience is a virtue.

He who fights and walks away lives to fight another day. So never risk becoming a martyr to any cause. Survive and learn through actions to probe in having principles as ideals, if only to prove that those ideals were truly justified and relevant to the future of mankind. You need to be able to judge this for yourself within your life time because no one else would ever be able to understand what you were really striving for and trying to prove. Does truth-based justice prevail? Will those who have the highest ideals survive unchallenged by anyone living today or those who may come in the future? Today we still have Buddha's pronouncements of Dharma. Is there a better way. I think he was not realistic and did not understand Nature as a communal practice under Buddhism. His prescription of nonviolence even towards viruses and bacteria I presume is prescriptive. It does not give us the tools to be who we are with our mind guiding our thoughts to find what actions as karma we should be undertaking individually to retain peace of mind as the only thing that matters. So we retreat to stay alive in order that we may be able to study Nature further taking nothing for granted, criticising noone for the truth always remains that we cannot be certain of anything, and so all our theories and beliefs are stepping stones to greater things to come before we can call yourself a Guru, a Sadhguru even. So never have delusions of grandeur that you are leading your country or the world as a learned person. This is my mental state the medics describe as persistent delusional disorder which is punctuated by episodes of paranoid schizophrenia. I am always trying just to survive nothing else, in liberty not in a mental hospital again after two such episodes of 2004 and 2008. I live each day fearing whether the State-Police or Mental Health personnel will visit me at home and take me away for incarceration.

On Facebook, Thiru Kumar wrote:

NHS

Dear Shantanu

Thank you for taking part in the COVID-19 infection survey run by the University of Oxford and the Office for National Statistics (ONS) in partnership with IQVIA.

If you are confused or worried about your test results, please see the information below and section "Your results and how they will be used" at <https://www.ons.gov.uk/cis>

The throat and nose swab taken on 18/01/2022 from the participant born on XX/08/1957 was negative for COVID-19 (no current infection).

Whatever your test results, if you develop COVID-19 symptoms now or in the future, it is very important that you follow the current guidance, particularly around isolation for you and your household. Do not wait for the results of any tests done in this survey. Your GP has not been told this result.

Every time you test positive for COVID-19 on a swab test in the survey, your national testing programme will contact you. You do not have to self-isolate every time you test positive on a nose and throat swab – please tell them that you are part of the ONS and University of Oxford COVID-19 Infection Survey and they will be able to give you the correct information about self-isolating.

As with all lab tests, the tests done in this study are not perfect, so both false-positives and false-negatives are possible. A false-positive result occurs when a test suggests someone has COVID-19 and/or antibodies when in fact they do not. A false-negative result occurs when a test suggests someone does not have COVID-19 and/or antibodies when in fact they do.

Important information:

Being positive on a throat and nose swab does not mean that you cannot get COVID-19 again or that you cannot pass on the virus to others. Working out how often this can happen is one of the reasons we are visiting the same people lots of times in the survey.

Even if you know you have had the virus, or you have been vaccinated, the only way to reduce the risk of becoming ill, or passing the disease on to others, is to follow the latest government advice on controlling the spread of the virus.

In particular, we know from studies testing the vaccines that although they work very well, they do not completely stop people getting the virus, or getting it again. We also know that some people can get the virus again even if they have antibodies. Please do not assume you cannot get COVID-19 again.

Further information about the survey is available on <https://www.ndm.ox.ac.uk/covid-19/covid-19-infection-survey> and <https://www.ons.gov.uk/cis>, together with a summary of the results to date on <https://www.ndm.ox.ac.uk/covid-19/covid-19-infection-survey/results>.

Yours sincerely,

The Covid-19 Infection Survey team

Note: throat and nose swabs are tested using a method called "PCR" at one of the national Lighthouse Laboratories where all the virus testing for the government is done. This test looks for parts of the genetic material of the virus.

Dear BP

I am writing to thank you from my heart how grateful I and my wife and daughter are that BP has given me the opportunity of a part-time job constituting 24 hours in three shifts per week at the Petrol Station cum Marks and Spencer Convenience food store with the associated Wild Bean Cafe provisions that I have had so much caring support from the Duty Managers Kai, Chiran, Chris, Vicky, Ramesh, Mandeep, Kim, Aartati, Suja, Shane, and Sharmila (one or two others that I do not know the names of yet) to start getting to grips with what is required of me in order to ensure the highest level of Customer satisfaction and the maintenance of the shop floor with deliveries of goods in the mornings and throughout the shifts that I work. The staff have been most gracious and helpful towards me and it has made my learning process all the more enjoyable. I have always loved Customer Service, and hopefully I will be able to sail through the probationary 12 week assessment in due course

It has been some years since I last worked in Petrol Stations but the Tills are more or less the same although the Loyalty Scheme has to be accommodated and I am aware that we have to do all we can to ensure the maximum level of Customer revisits to the Store. I have done the Online Training. This is just to let you know that I am perfectly happy with this employment opportunity that you have given me and wish to work for BP until I am no longer fit enough for employment given my 65 years of age.

Many thanks again for having faith in me so that in my semi-retirement I can contribute productively to the economy of the United Kingdom towards which I feel loyalty for the 49 years of life as an Immigrant person of Indian extraction,
